DUAL-FLOW FOAM NOZZLE

Designed for rapid intervention in aircraft fire fighting. **Style 238**

- Selectable Dual Flows: 60 gpm (230 lpm) and 125 gpm (475 lpm)
- Adjust flows by turning the flow index ring
- Trigger Shutoff or Ball valve (must specify)
- Variable foam spreader enables change of foam application pattern
- Stainless Steel barrel and spreader
- Expansion rate up to 15:1 with AFFF
- Additional pistol grip for excellent control
- Inlet options: 1-1/2" threaded or 2-1/2" British Instantaneous

Performance Chart

AFFF	Flow Rate (LPM)	Pressure (Bar)	Foam Expansion Rate	Flat Fan Spray Footprint	Range (Meters)
230 LPM	230	7	1: 15	10 M X 5 M	16
475 LPM	475	7	1: 15	12 M X 5 M	16
