

Automatic Fixed Pressure Nozzles

Style #312

- ❖ Strong lightweight corrosion-resistant alloy construction
- ❖ Fully pressure-regulating nozzle automatically adjust to fluctuating flow to maintain effective pressure and stream
- ❖ At the rated flow, the nozzle maintains an effective nozzle pressure of approximately 100 PSI (7 Bar)
- ❖ Excellent performance at pressure as little as 50 PSI (3.5 bar)
- ❖ Multi pattern detents for positive positioning of pattern. Flush without shutting down
- ❖ Excellent performance at the maximum flows
- ❖ Stainless steel spinning teeth
- ❖ Combination of fog and straight stream
- ❖ Low through life maintenance due to the use of top quality material and design
- ❖ Suitable for use with foam and foam attachment available
- ❖ Conforms to all aspects of NFPA 1964, 2003 edition

Style	Inlet	Flow		Length	Weight
312	1-1/2"	60-200 GPM	230-705LPM	10"	5.7 lb
